FOR IMMEDIATE RELEASE: December 1, 2009

Domaille Engineering has announced the launch of their new website at <http://www.DomailleEngineering.com>

Rochester, MN, December 1, 2009 – Domaille Engineering is proud to announce the launch of their new website at <http://www.DomailleEngineering.com>. The user-friendly site offers information about the company's product lines, as well as resource information and news.

"This site is an effort to take Domaille Engineering to the next level in terms of technology. The new website will be a great source of information for our customers and prospective clients," said Jim Frazer, President. "We wanted a clean and navigable website that our clients will find appealing and informative."

"Domaille Engineering has long been a leader in manufacturing technology. We have developed many innovative products in recent years, including our new ABRASAVE™ optical fiber polishing fixture line. These innovations are helping our customers gain market share and the new website will further showcase our engineering and manufacturing abilities."

Domaille Engineering LLC is a worldwide provider of precision engineering and manufacturing services to high-tech industries and a leading manufacturer of optical fiber polishing equipment. Domaille Engineering is three time winner of the prestigious Deloitte & Touche's Fast 50 award, given annually to the top 50 fastest growing technology companies in Minnesota. Established in 1990, Domaille Engineering is headquartered in Rochester, Minnesota.
