

Fiber Optic Microscope

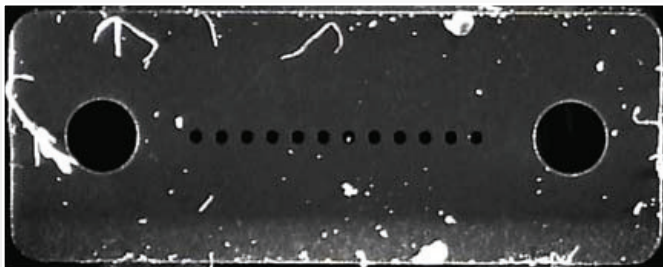

OPTISPEC®
DE2600-S1

Domaille Engineering is proud to announce our new OptiSpec® DE2600-S1 microscope.

The DE2600-S1 is designed to provide a quick view of the entire MT end face with special blue lighting for enhanced end face particle detection. Our DE2600-S1 accommodates all of the standard PC and APC connectors including the entire MT connector Series.
